

Dear Parents,

May 3, 2011

In Social Studies, the Fifth Grade has been making connections to “Greece in their lives” by sharing encounters with Greek culture from their daily lives. Students performed Greek myths before break. The students have formed their own city-states and discussed the geography and culture of Ancient Greece. Their final project will encompass Chapters 6 and 7 and involve comparisons between Ancient Greece and Ancient Rome.

Thank you,
Mrs. Russ and Miss Bott
